GAURI JADHAV

ASPIRING SOFTWARE DEVELOPER

gaurijadhav2908@gmail.com | 7775985913 | linkedin.com/in/gauri-jadhav-193030445

PROFESSIONAL SUMMARY

Computer Science graduate currently pursuing the first year of an M.Sc. in Computer Science. Knowledge of Java, Python, C, HTML, CSS, JavaScript, PHP, SQL, and PostgreSQL, with hands-on academic project experience in web application development and database management. Interested in building practical software solutions and contributing to entry-level software, web, and application development teams. Strong foundation in logical thinking, problem solving, collaboration, and continuous learning.

TECHNICAL SKILLS

Programming Languages: C, Java, Python

Web Technologies: HTML, CSS, JavaScript

Backend Development: PHP

Databases: SQL, PostgreSQL

Core Competencies: Problem Solving, Logical Thinking, Teamwork, Communication, Quick Learning, Adaptability

EDUCATION

Master of Science (M.Sc.) in Computer Science — First Year, Currently Pursuing

Bachelor of Science (B.Sc.) in Computer Science — Savitribai Phule Pune University

Higher Secondary Certificate (HSC – XII) — Pravara Kanya Vidya Mandir, Loni

PROJECTS

Milk Product Inventory and Sales Management System

Technologies: HTML, CSS, JavaScript, PHP, PostgreSQL

- Developed an inventory and sales management system for Samadhan Milk Products.
- Created functionality to manage milk product inventory and maintain sales records.
- Used PHP for server-side functionality and PostgreSQL for database management.

To-Do List Application

Technologies: HTML, CSS, JavaScript

- Built a web-based task management application to organize daily activities.
- Designed a simple interface to support efficient task management.

Simon Says Game

Technologies: HTML, CSS, JavaScript

- Developed an interactive memory game with pattern-recognition challenges.
- Implemented game sequences and user interactions using JavaScript.

Spotify Clone

Technologies: HTML, CSS

- Created a frontend interface inspired by a music-streaming platform.
- Applied HTML and CSS to structure and style the user interface.

RESEARCH PUBLICATION

Research Paper – IJIRT, National Conference INSIGHT 2026
Published “A Study of Cybersecurity Awareness Among Digitally Less Literate People with a Community Driven Fraud Reporting Application.” The research focuses on cybersecurity awareness and digital safety and proposes a community-driven application for reporting cyber fraud.
Journal: International Journal of Innovative Research in Technology (IJIRT) | **ISSN:** 2349-6002
Publication Registration ID: 208495 | **Publication:** August 2026

CAREER INTERESTS

Software Development, Java Development, Web Development, Application Development, Junior Software Developer, Graduate Trainee, Associate Software Engineer
